COLONIST TRAIN

WENT OVER AN EMBANKMENT

Many Injured but none Killed in an Accident on the C.P.R.

Bulletin Special.

Fort William, March 30.—A west-bound C. P. R. colonist train was derailed near Dryden this morning owing to a broken rail. It was running twenty-five miles an hour and four out of 12 cars went over a fifteen-foot embankment. Many passengers were cut and bruised, two being seriously injured. Clara Bailey, of Madoc, Ont., was seriously bruised in the chest, and Mrs. William Dean, Dundalk, Ont., had her right leg broken. The injured are being attended to at Dryden by local doctors and aid from Red Portage.

Dryden, Ont., 100 miles west of Fort William, March 31.—As the third section of the transcontinental pulled out for the West with 600 homeseekers from Ontario aboard a broken rail caused two cars to tumble down to the bottom of a fifty-foot embankment, one car being smashed to atoms. Three cars turned on their sides and three others went off the track. No one was killed, but about thirty received more or less serious injuries.

No Peace yet

Bulletin Special.

London, March 31.—The talk of peace grows stronger, and more valuable, but nothing is really crystallized yet.

Canadians Loan \$12,000,000.

Bulletin Special.

Montreal, March 31.—The Canadian subscription to the new Japanese loan amount to \$12,000,000. The Bank of Montreal is extremely busy taking applications from all parts of the Dominion.

Fort William gets excited

Bulletin Special.

Fort William, March 31.—The town will be the terminal of the G. T. P. says General Manager Morse. The town is consequently in gala attire and with bands playing. Thousands of dollars worth of property changed hands today.

Strathcona Man successful

Bulletin Special.

Toronto, March 31.—Among ninety-one graduates of Ontario Veterinary College appears the name of J. C. Walwright of Strathcona, and C. J. Moore of Lumsden.

Lougheed's Amendment Defeated.

Bulletin Special.

Ottawa, March 31st.—In the Senate today Senator Lougheed's amendment to the bill respecting the Calgary, Red Deer and Battleford railway Co., was defeated by 33 to 21. The amendment sought to compel the line to run into Calgary and Edmonton instead of to points at or near these places. The bill was read a third time.

Charged with Murder.

Bulletin Special.

London, March 31st.—Robt. Quick the Canadac farmer who choked his brother Alfred to death, on Saturday afternoon last, was committed for trial here today on a charge of murder. Quick is deranged and raved during much of the hearing. He was constantly manacled and guarded.

STRATHCONA HOTEL

SUFFERS BADLY FROM FIRE.

The Windsor Hotel in the neighbouring Town gutted by flames.—Furniture destroyed.

The Windsor Hotel, Strathcona, was gutted by fire yesterday and the furniture and fittings practically ruined by fire, water and smoke. The fire originated about four o'clock in the afternoon from the pipes of the kitchen range. The alarm brought the town brigade out promptly but some delay occurred in getting the gasoline fire engine to work. A bucket brigade was formed to hold the flames in check and a phone message sent to the fire hall here for the steamer.

This was at once sent over but the Strathcona engine had been got to work in the meantime and had the fire well in hand when the Edmonton detachment arrived. It was extinguished and the building saved, though very badly damaged inside, some nine rooms comprising the original building being especially badly burned. The newer portion was burned less and the damage there was chiefly from water and smoke. The furniture in the older part was burned and that in the other section stained, discolored and badly scorched. An estimate places the loss at from \$3,000 to \$4,000.

A very strong wind was blowing and had the fire not been confined practically to the interior of the building a wide spread conflagration might have ensued.

General Briefs

The whole of Vice-Admiral Negatoff's squadron has sailed southward from Suez.

A report has reached St. Paul, Minn., that the town of Louisburg, in the western portion of the state, had been practically wiped out by a tornado, and that several persons were seriously injured. It was also stated that from two to seven were killed.

Fifty engineers of the Canadian Pacific are reduced to firemen and twenty-five firemen are laid off. The condition of Russell Sage, who has been confined to his home for some time is much more serious than has been reported. His physicians visit him daily and say he has a good chance for recovery.

Letters and consular reports from Van and other parts of Armenia state that the situation there is steadily growing worse. Business is at a standstill, few crops have been sown and Kurd raids on Armenian villages are unrestricted. One of the latest letters says: "The government is demanding taxes with relentless severity, and seizing cattle, farming implements and even bedding and household necessities. There is no sign of improvement. General ruin of the country is foreboded."

Preparing GOOD Medicine

Good medicine requires GOOD materials.

Good medicine requires GOOD compound.

We compound prescriptions carefully and accurately from materials that are of the very highest standard of quality. Because of these facts the medicine we prepare is GOOD MEDICINE.

FRIDAY, MARCH 31st, 1905.

PARLIAMENT

Ottawa, March 24th, 1905

Divided Councils of the Opposition.

The second day of the debate on the second reading of the Autonomy Bills developed the position of the Opposition party to a rather startling degree. Immediately to the right of the leader, Mr. Borden, sits Dr. Sproule, Grand Master of the Orange Association of Canada, and immediately behind him sits F. D. Monk, leader of the French Conservatives in the House. These two are the most powerful of Mr. Borden's lieutenants. The position of Mr. Foster, who sits at Mr. Borden's left, is that of assistant or deputy leader of the party as a whole.

Sproule speaks with moderation.

The first speech of the day was by Dr. Sproule. He spoke in very moderate terms and repudiated for the Conservative party the allegation that its members and press had attempted to stir up religious strife. In this work the Liberal press had taken a part as active as did the Conservative. For any such strife as might exist he blamed the Premier who had introduced such features into the Autonomy Bills as compelled protest by a large proportion, if not a majority, of the people of the country on both sides of politics.

Always for Provincial Rights

Speaking for himself he had always been a supporter of provincial rights. He had voted with the present Premier on the Jesuit Estate Bill and on the remedial bill of 96. He still stood by the principle and regretted that the Premier had on this occasion departed from it.

No Constitutional Obligation.

He dealt at length with the constitutional obligation of Parliament to provide for the continuance of separate schools in the West. He denied the obligation and held that under the constitution the provinces were and should be absolutely free in the management of their own educational affairs. In this connection he read a long legal opinion from Christopher Robinson, K.C., an acknowledged authority on constitutional law.

An Important Legal Opinion.

Mr. Robinson's answer is divided into two parts, one apparently in reply to the question "Has Parliament the right to impose educational restrictions upon the new provinces," the other, "Is Parliament bound to impose such restrictions." In reply to the first question he said, "The right of the Dominion Parliament to impose restrictions upon the provinces about to be formed, in dealing with the subject of education and separate schools, is, I think, not beyond question. This would require more consideration than I have been able yet to give it and must ultimately be settled by judicial decision."

In reply to the second question, as to whether Parliament is bound to impose such restrictive legislation, he said, "I am of the opinion in the negative. It must be borne in mind that I am concerned only in the question of legal obligation. What the Parliament ought to do, or should do in the exercise of any power which they may possess is not within the province of counsel. Such a restriction, I apprehend, must exist or may be imposed for a time under the provisions of section 93 of the British North America Act of 1867, and on the ground of their application to the provinces now to be formed. If that section applies that it would seem to require an enactment of our Parliament to give it effect, and if not, no such enactment as far as I am aware is otherwise made necessary. Upon the whole, I am of the opinion that section 93 does not apply to the province now about to be established. Its provisions would appear to me to be intended for and confined to the then provinces and to the union formed in '67. There is not in any part of the North West Territories as a province any right or privilege with respect to denominational schools possessed by any class of persons created by the province or existing at such union, and a right subsequently established by the Dominion in that part now about to be made a province does not appear to me to come within the enactment."

Mr. Robinson does not know.

Shortly stated Mr. Robinson's answer to the first question is that he does not know; and the only way to find out is to apply to the Privy Council. His answer to the second question is that he does not know whether the restrictive provisions of the British North America Act apply or not; that depends, as was already stated by Mr. Borden, on whether the union is considered to have taken place when the North West Territories were acquired by Canada or when the provinces are created. He gives his opinion that the annexation of the North West to Canada was the union meant by the British North America Act.

Is the Union now or in 1871?

If that were the case then there would be no doubt that the restrictive provisions of the British North America Act would not apply, but if the actual formation of the provinces is the union meant, then he is as positive that the restrictive provisions do apply whether enacted by Parliament or not.

Were the Framers of Confederation Sane?

It will be observed that on the question of law he is positive, but on the question of fact, upon which the law rests, he is in doubt. There can be no doubt, however, that the educational provisions of the British North America Act were not intended, and did not as a matter of fact, apply to uninhabited, or practically uninhabited territory as was the North West Territories at the date of their annexation to Canada. The provisions of the British North America Act are for people not territory, and to say that provisions intended evidently to protect supposed interests of certain people upon their entering upon the status of a province of Confederation should not have effect because at a date some thirty-five years before there were no people in the country affected is to state a palpable absurdity, of which the fathers of Confederation cannot be supposed to have been guilty. Unless they did make such an absurd provision and fell so far short of conveying their evident intent, then Mr. Robinson is perfectly clear that the restrictive provisions of the British North America Act apply whether embodied in the Autonomy Bills or not, and that therefore a proper interpretation of those rights is not in any sense an infringement upon provincial rights under confederation.

Robinson's Opinion was Sproule's Speech.

When Mr. Sproule got through reading the opinion of Mr. Robinson and the question at issue had thereby absolutely been narrowed down to the point upon which Mr. Borden had already rested it, namely, whether the union meant the year 1871 or 1906, there was not very much more to say on that point and the doctor turned his attention to generalizations and quotations with which he filled up the balance of a two hours speech.

Parliament should carry out its own Traditions

Hon. Mr. Paterson, Minister of Customs, followed in a short address in which he pointed out that the separate school rights of the religious minority in the Territories had been enjoyed for thirty years. This being the case Parliament was only carrying out its traditions in providing for the continuation of the privilege. He drew a sharp distinction between the so-called separate schools of the North West and the separate school system of Ontario and Quebec. For all purposes of education all North West schools are national schools. On the strength of Mr. Robinson's opinion just read Parliament had power to pass protective legislation. He believed it to be the duty of Parliament to do so.

A Brilliant Speech.

F. D. Monk, French Leader of the Opposition followed in an address which will long be remembered in Parliament as a strong and yet moderate statement on a difficult and delicate question, made by a member speaking under circumstances of exceptional difficulty; and by reason of the high level taken and the ability displayed marked a turning point in the debate.

Monk and Borden utterly opposed

Mr. Monk countered the position of his leader point by point from beginning to end; as to the constitutional right and duty of Parliament to legislate as it was doing; as to the merits of the school system which existed in the North West, and as to the principles acknowledged by that system. He supported as a Roman Catholic, the principle of religious instruction in the schools, of the right of the people conceded in England, to denominational schools; he acknowledged that but little of those rights were embodied in the North West school law, but for such shreds of these principles as were therein contained he would support the provisions of the bill though against the amendment of his leader.

Clerical interference suggested.

His closing reference was to the accusation which had been made that those who supported the bill were under hierarchical control. He resented the insinuation as an insult and said that if in the country he represented, the parish priests were to unite in using their clerical influence in his support he believed he would lose his deposit, such was the feeling of the people against clerical domination in political affairs.

He Meant Fight.

Evidently what he said was said after due consideration and with full knowledge of the effect that it must have upon the party of which he is a member. The full impact of Mr. Borden's remark at the opening of his speech, that he only spoke for himself and not for his followers, has become fully apparent after the speech of Mr. Monk.

The debate was adjourned on motion of Mr. Sifton, who will speak today.

Ross Bros. Ltd

TIME TO GET BUSY.
House Cleaning Time Will
Soon Be Here.

You will want Paint, Varnish, Furniture Polish, Wall Colors and Brushes.

Ross Bros., Limited, have the best assortment of these Goods to be found in any store west of Winnipeg, and you will be surprised to find how simple it is to apply these goods if properly selected.

ROSS BROS. buy direct from the Manufacturers, and their long experience in the paint business enables them to choose what is best in material, and simplest in application.

There are so many times that a lady wants to do a little touching up in a room or on a piece of furniture, but does not want to go to the trouble, or expense of engaging a painter. Any man, woman, or child can do a good job with our ready mixed paints, and if you need any directions it is no trouble for Ross Bros. to give all the information necessary. New and fresh paints arriving almost daily.

THEY SELL AN IMMENSE QUANTITY in a season and the continual turnover always WARRANTS FRESH GOODS, which is a very ESSENTIAL THING in good READY MIXED PAINTS AND VARNISHES. Many smaller concerns will say their goods are just as good and fresh, but use your own judgment in this, and common sense will show you the difference.

To those who expect to want wire fence this season, Ross Bros. would like to call attention to the "LAMB WOVEN WIRE FENCE."

Many people will think that one wire fence is as good as another, but there are many reasons why some Woven Fences are better than others. The LAMB FENCE has a lock or fastening peculiarly its own. It is made from the best Galvanized Carbon Wire. Provision is made for the contraction and expansion, and it does not sag, or buckle which is so annoying in a great many fences. The wires are heavy and strong, and are made to withstand the pressure or attacks of the largest animals, and any man can stretch it into place. It is kept in 20, 30 and 40 rod rolls, in heights of 24 inches, 30 inches and 52 inches, sold in Edmonton only by

Ross Bros. Ltd

MUNICIPAL MATTERS.

The city council met on Tuesday evening shortly after the regular session and got through with the bulk of the current business by extending the term of the session a half hour. To complete all the business presented appears to have gone beyond the power of the council and the continuing majority in recent meetings have been usually occupied in raising through the matters requiring immediate action, a weekly important balance thus being carried forward, so that the work appears impossible under the present circumstances and if the council of the powers and duties of the city commission does not provide for transferring a much larger share of the civic business to this body it may be found necessary to multiply the meetings of the council before the year is ended. The members, however, appear willing to give the matter a very fair trial and the majority referred to the executive body is weekly gaining in scope and importance. So far the method when tried has been found to work quite satisfactorily. The reports from the commissioners have been usually brief and explicit and the ensuing action of the council prompt.

A discussion on the question of the city pound, or lack of pound, led up to the delays of the bylaw committee. This committee has been asked to prepare a bylaw free from the defects of the former one, but as yet it has not been brought down. The reason assigned was that the city solicitor was absent and the committee wished to confer with him. The absence of the solicitor has on several late occasions been found of considerable inconvenience to the council and it would seem not out of place to suggest that a standing arrangement be made whereby in his absence other legal guidance would be assured the council on his responsibility. This committee, however, does not appear to have been unusually active in several matters referred to them. Some time since, a request from the dairymen for a license was left with this committee and does not appear to have been heard of since. The chief delay in this regard, however, has probably been in connection with the consolidation of the city bylaws. It has been frequently urged since the beginning of the year that the bylaws of the city should be consolidated and brought into a collected form for convenience of reference. The committee perhaps naturally do not feel inclined to undertake the task, the city solicitor it appears, is not disposed to do the work without a financial consideration and it has been suggested that another solicitor be engaged for the purpose. So far the committee have not made a definite recommendation on the matter and in consequence no action has been taken.

The proceedings of the evening were enlivened by the presentation of a communication from Mr. Tomlinson in reply to the defence made by Mr. Kinnaird to the finance committee. The letter was read and laid on the table, while the presentation of the secretary's annual statement, when the two can be taken up together. Several aldermen expressed the view that the matter had been closed and should not be reopened. Their contention was probably correct in a measure. The adoption of the report of the finance committee bound the council to the inauguration of the changes therein suggested, among which were the recommendations of the ex-auditor for the re-systematizing of the accounting methods and the consideration of the employment of an expert accountant with the view to his becoming secretary-treasurer of the city. But the action of the council on Friday evening in dismissing the auditor whose report they had endorsed, and in appointing the finance commissioner also the secretary-treasurer in effect rescinded this action and in a manner made its fulfilment impossible. If the changes in the accounting system should be made who is now to make them or see that they are made in the manner in which the council decided that they should be made?

The secretary-treasurer having been appointed, how is the council to consider the engagement of an accountant with the view of his assuming this position? The secretary-treasurer in name will very naturally and very properly object to the council naming the assistant for whom he is to be responsible, and who is supposed in time to deprive him of an office for the filling of which in name and responsibility he receives a very substantial increase in salary. It would appear that the matter was not closed but was opened again in a manner which promises to evoke considerable criticism.

An announcement which created some surprise, not to say consternation, about the board, was the information that the city stand pipe is allowed to run dry nearly every night. From the discussion which ensued, it appears that the pumps are stopped about 3 o'clock each afternoon and the pipe relied on for the water supply for the remainder of the day and night. The pipe, however, has on several occasions proven inadequate, and water users found the service pipes empty after midnight. At first the announcement of this fact seemed the equivalent of saying that from midnight to dawn the city was liable to be without fire protection. The purview of the stand pipe, however, is not to supply water for service, not to furnish pressure for fire purposes and the condition of the stand pipe is claimed to make no difference to the efficiency of the fire protection system. The water from the stand pipe has a pressure of only 40 lbs. per square inch, and the pipe is cut off when

BECAUSE PROPERLY CURED

Y Pharaohs have been called a "Health cigar" and this is why: Every leaf of tobacco I work into Pharaoh is absolutely free of "gum."

You must know that a "gummy" tobacco will make a poor smoke and act injuriously on the throat and stomach. The gum, dissolved by the heat of combustion, is drawn into the mouth—becomes mixed with the saliva and finally reaches the stomach.

The membrane that lines your throat and stomach is pretty tough—but it won't stand the harsh, irritating action of this dissolved gum.

You'll have sore throat if you smoke the "gum" cigar—you'll have heartburn, indigestion, and a disagreeable taste in your mouth from an injured stomach.

With every particle of gum properly "sweated," cured and aged out of the leaf I use as filler for my Pharaoh, I can guarantee you a pure, cool, sweet, fragrant smoke—free from disagreeable tastes and injurious actions on the inner man.

ROBLIN MAY RESIGN

OVER THE BOUNDARY QUESTION

The Manitoba Government reported as exceedingly huffed because the Federal Government would not stampede

Bulletin Special.

Winnipeg, Man., March 31.—The Tribune created a great sensation this afternoon by giving a prominent announcement that it had learned on reliable authority that the Manitoba Government had determined on dissolution, but this had been refused by the Lieutenant-Governor. When seen by your correspondent Premier Roblin was uncommunicative, but declared that the best of relations existed between him and Sir Daniel McMillan. However, Hon. Rogers, Minister of Public Works, declared he was himself persuaded this was the only proper course in view of the indignities to which Manitoba had been subjected by the Federal Government in regard to her just claims for extension of boundaries, and that an appeal to the people would ventilate the whole question, and make clear popular feeling in defence of the rights of the province. The matter is causing intense excitement in the political clubs, and the Liberals declare themselves perfectly ready for a test of opinion, while it is even said Sir John himself will lead their ranks. Rumor has it that dissolution will occur within a few days and elections first week in May.

Killed by a Pile Driver

Bulletin Special.

Battleford, March 31.—Yesterday afternoon the pile driver at the top of the pile driver at the C.N.R. bridge nine miles west of town, came out or broke, letting the block fall. It struck Archie Brown, from Neepawa, on the head, instantly killing him. Brown is said to have a brother at Stony Plain and an uncle at Clover Bar.

Last night a mass meeting of citizens voted to refuse the offer of the Saskatchewan Valley Land Co. to move over to the new town site. Property owners will get a lot for \$50 and build and occupy a building worth \$800 inside of twelve months.

British Grand National

Bulletin Special.

London, March 31.—The Grand National resulted as follows: Kirkland 1, Napier Tandy 2, Buckaway 3.

DISCUSSED RAILWAY MATTERS

The city council met on Wednesday evening in special session and sat as committee of the whole for the discussion of railway matters. Ald. May and City Solicitor Beck were appointed delegates to interview the C.N.R. and G.T.P. authorities in Winnipeg on the east. Both gentlemen are now in Ottawa. Should Ald. May be unable to join in the conference, Solicitor Beck will represent the city. The mayor and Mr. Timony were chosen a committee to formulate instructions to the delegates.

The Evils of Imitation.

Success breeds imitation.

Let a clever designer create a new hat or shoe or coat—and it is copied by every petty maker in the country.

Fit-Reform styles, Fit-Reform garments, Fit-Reform Wardrobes, are imitated. And the imitators' sole claim to popularity is that the imitations are "just as good" as Fit-Reform. NEVER BETTER—only "just as good."

Fit-Reform originates and creates styles—garments—methods.

LAWN GRASS

When you go to the expense of getting ground ready for a lawn, it is poor policy to be careless about the selection of the seed.

The seed suitable for Ontario and the Eastern Provinces will not do in the North-West as the tender roots are killed during the severe winter.

After years of experimenting, a satisfactory mixture, consisting of seed of entirely native variety, has been found.

USE B. & K. LAWN GRASS

and if the directions are properly followed you will not be disappointed.

Among the successful users of B. & K. LAWN GRASS we can mention:—

J. H. Picard, Alderman, Edmonton. J. A. McDoagall, Merchant, Edmonton.
Alex. Taylor, Post Master. A. W. Ormsby, City Electrician.
S. Lorne, Merchant. Mayor Davis, Strathcona.
The Strathcona Tennis Club, Strathcona. And many others.

AT ALL DEALERS. 35c. PER PACKAGE.

WANTED

Teacher for Whiteford School, term of six months, starting about middle of April 1905. Robert H. Mennie, secretary, Whiteford P. O. dy 65-82, pd.

PERSONAL.

Dr. Braithwaite went south today and will return this evening.

E. B. Beck went down the line today.

Father Lestane returned to Okotoks this morning.

Father Culayer returned to Lethbridge today.

Bishop Pinkham returned to Calgary on Tuesday.

M. R. Miller is at Lloydminster on a business trip.

A. Patterson returned to White Horse Lake today.

Fred Irwin arrived in the city last night from the Fort.

J. Foley, of the Indian agency, is in the city today.

W. Picard has taken a position in the Grand Central hotel, Vegreville.

W. Ramsay, principal of the public schools, returned on Wednesday from the East.

J. A. McKinnon, of the Frost & Wood Co., returned yesterday from a trip to the Beaver Lake and Vegreville districts.

J. Mountain has taken up a homestead in the Birch Creek country and left last week with supplies and effects.

J. D. McArthur, contractor for the construction of the C. N. R., is expected to arrive in the city today from Vegreville.

M. Satter, brother of C. W. Satter who has resided in Edmonton for the last three years, has moved with his family to his homestead in the Birch Creek country.

A. Fleming, formerly of the Hudson Bay Co.'s staff here, has taken a position as travelling salesman for the International Harvester Co., also retaining his connection with the Vermillion Trading Co.

WILL ADVERTISE ALBERTA.

The C. P. R. Irrigation department is making extensive preparations for advertising the capabilities of southern and central Alberta for producing winter wheat. A comprehensive bulletin will shortly be issued giving the results of several years' experience with fall wheat in Alberta, and with all necessary statistics and information bearing on the subject. This bulletin will be widely distributed, especially in connection with the big exposition which will take place this year at Portland Oregon. At this exhibition there will be an elaborate demonstration of the possibilities of fall wheat. There will be a large number of samples in long glass jars, and in addition several thousand small bottles, containing three or four ounces of Alberta fall wheat, properly dosed, will be distributed to people interested in the exhibit. The significant feature about the statistics which have been gathered from actual farmers and others is that the average production of winter wheat in Alberta is thirty bushels, the returns running as low as twenty-three bushels to the acre and up to thirty-nine. The significance of this fact is seen at a glance when it is remembered that the average production of spring wheat to the acre in the great wheat districts of Manitoba and Dakota is from 16 to 23 bushels.

GOOD AGENTS FOR THE
Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

MUNICIPAL MATTERS.

Continued from page three

the high pressure is turned on the mains for fire purposes.

Possibly the most important work of the council of 1905 will be the sewer extensions decided upon Tuesday evening. Briefly the new auxiliary systems will drain respectively the property north and south of Victoria avenue and served by the present system. Only the latter extension will be undertaken this season, the larger enterprise being left over for next year. The adoption of these plans is the latest step in the continuous evolution through which the problem of west end sewer extension has passed during the past three years. When Mr. Chisholm prepared the first plans for the present system it was found that a large area in the vicinity of the C. N. R. property was so low that a sewer to drain it would have to be laid far deeper than necessary in other parts of the city. The design of a trunk sewer south from this area to Saskatchewan avenue and thence eastward to the river near the bridge was suggested and has been the basis of calculations in this connection since. The new plan is partly an adaptation and partly a departure from this proposal.

Mr. Morse in Winnipeg.

From the Free Press: F. W. Morse, vice-president and general manager of the Grand Trunk Pacific, arrived in Winnipeg Saturday evening with his party. They had spent the day in Brandon and came east on the Moose Jaw local, to which their private car was attached.

It was expected that Mr. Morse would be able to make some arrangements with regard to western terminals, locations and letting of contracts; but in speaking to a reporter for the Free Press he said that he was sorry that negotiations had not yet reached a stage where it was possible to make any definite announcements. He said, however, that the next couple of weeks would probably see many of these matters settled, when it would be possible to make public all the questions of interest in regard to the construction of the new transcontinental line.

Mr. Morse was asked some particulars with regard to the Winnipeg and lake terminals. He replied that several surveys had been made at both points, but that no decision had been arrived at as to which of these was most suitable. At Winnipeg there were three propositions in sight. A separate depot, or a union depot with either the C. P. R. or C. N. R., and the selection in this case will depend entirely on the relative merits of the propositions offered. In any case there were a great many things to be taken into consideration. He had expected to see some of the C. N. R. officials while in Winnipeg, but as they are all in the east at the present time the meeting would have to be postponed.

The date of beginning construction was another matter which he would not be able to announce till after his return east. He said, however, that so far as he knew at present construction from the lake north to join with the main line would be begun early this summer. The profiles and all the necessary data for the greater portion of the line were already at hand, and construction could be begun within a very short time. West from Winnipeg the location was not yet decided, but he expected the construction would be begun during the latter part of the summer or early in the fall. There was little use in building much of the western line till connection with the lakes had been established.

While construction was under discussion, the dispute over the land grant in British Columbia was brought up, and Mr. Morse explained the subject in detail. He said that when he arrived at the coast he had been visited by a number of business men and others who had asked that construction work be started at the same time as from the eastern end. This was in order that the wholesalers and others at the coast would have the opportunity of furnishing the supplies and materials used on that portion of the line. They explained that if the road were built from the east across the mountains the whole of the supplies would come from Montreal, Toronto and Winnipeg houses, and they wanted to get a share of the sums to be expended on construction work.

There was another side to the proposition, however, and this Mr. Morse pointed out. He said that if construction were begun at the west end, all of the rolling stock, motive power, bridge and track materials, and machinery would have to be shipped to the coast over a rival road and sent north by water a distance of several hundreds of miles. This would be a tremendous expense. Again if the line were to be built from the east to the west, settlement would follow the line, which would become a revenue producer as fast as it was constructed. This would not be the case on the coast, where there would be nothing but a little local business. He asked the Government of British Columbia if they would agree to give a land bonus if construction was started first from the western terminal. They refused, and Mr. Morse said that the company would hold to the original plan of building west.

There are several matters in Winnipeg which are to be attended to and Mr. Morse will not continue his eastern journey till Tuesday evening. With him on his western trip were James G. Carruthers, grain exporter of Toronto and Montreal, George Carruthers, Winnipeg; F. J. Palmer of Victoria, one of the most prominent lumber dealers on the coast; and A. R. Fay, of the Swift Packing company, Chicago.

LOCAL

—The committee of the council and the directors of the exhibition association met Thursday and agreed on the attraction program for the fair.

—The proposal has been made that a banquet under the combined auspices of the city council and the Board of Trade be held on the evening of Saturday, July 1. The day is Dominion day, the birthday of the new provinces and the last day of the Edmonton fair.

—W. McKenzie, western manager of the Standard Life Assurance Co. has been in the city for several days on a trip of inspection. Mr. Jas. McGeorge has been appointed district agent for the company. The Standard has been doing business in Canada since 1847 and have some \$18,000,000 invested in Canadian securities. A loan business is carried on in connection with the insurance. This is Mr. McKenzie's first visit to the city and he is very well pleased with the appearance and indications of progress.

—The Battleford Herald says: Shortly after one o'clock yesterday afternoon a small rent of smoke was seen curling up from the grass on the barrack square, about a hundred feet east of the south stables, but before anybody could reach it the fire had run straight to the stable and ignited a load of hay standing by the corral ready to be unloaded. The fire spread from this to the hay in the corral, and to the stable which was entirely consumed. The horses, of which there were twenty-four in the stable at the time were all saved, although one sick mare in a box stall at the end where the fire first caught was only rescued by a hole being chopped through the outer wall and the mare drawn out after she was nearly suffocated. Owing to the horses being saddled for a mounted parade at the time the fire broke out, most of the saddles were saved, but a quantity of harness was lost. The men, who were in their barrack rooms preparing for the parade, quickly responded and after saving the horses, were distributed throughout the barracks, upon the roofs of the other buildings, and on the hay stacks to watch for burning shingles, which were carried a remarkable distance by the light wind blowing at the time. The small fire engine at the barracks was too small to cope with so large a fire at first, particularly as the small quantity of water available had to be hauled down, but after the walls were pulled down it did good work. The building was over twenty years old, being one of the 125 stables in the original stockade, and was used in the year of the rebellion as a prison, two rebels being confined in each stall.

Lever's V-Z (Wise Head) Disinfectant Soap
powder is a boon to any home. It disinfects and cleans at the same time.

Nine Nations

Now Use Ligozone. Won't You Try It—Free?

Millions of people, of nine different nations, are constant users of Ligozone. Some are using it to get well, some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed. These users are everywhere; your neighbors and friends are among them. And half the people you meet—wherever you are—know someone whom Ligozone has cured.

If you need help, please ask some of these users what Ligozone does. Don't blindly take medicine for what medicine cannot do. Drugs never kill germs. For your own sake, ask about Ligozone; then let us buy you a full-size bottle to try.

We Paid \$100,000

For the American rights to Ligozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Ligozone destroys the cause of any germ disease.

Ligozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the

most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Ligozone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma
Alcoholism—Anemia
Bleedings
Blood Poison
Bright's Disease
Bowel Troubles
Coughs—Croup
Consumption
Colic—Cramp
Constipation
Calculus—Cancer
Trachoma—Diarrhea
Dandruff—Grippe
Typhoid
Scabies—Strabismus

Fever—Gall Stones
Jaundice—Gout
Gonorrhea—Glaucoma
Tumors—Ulcers
Tetanus—Whooping Cough
Worms' Diseases

All diseases that begin with fever—all inflammations—all febrile—all contagious diseases—all the results of impure or poisoned blood. In every case Ligozone acts as a vitalizer, accomplishing what no drugs can do.

50c. Bottle Free.

If you need Ligozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Ligozone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever.

Ligozone costs 50c. and 1L.

CUT OUT THIS COUPON

For this offer may not appear again. Fill out the blanks and mail it to The Ligozone Company, 125-126 Wabash Ave., Chicago.

N. LEGIER, Prop

EDMONTON ALTA. CANADA

POPULATION, 7,500
CITY GOVERNMENT:-

Mayor, K. W. MacKenzie; Aldermen, C. May, K. A. McLeod, W. H. Park, D. R. Fraser, J. R. Boyle, T. Bellamy, J. H. Picard, W. A. Griesbach.

Conveniences:- Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:- President, J. H. Morris, Secretary, F. F. Tims.

Immigration Officer:- C. W. Sutter.

Educational Institutions:- Public and separate schools, high school, Alberta College.

CHURCHES:- Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:- Leaves for Strathcona 7.45 and 15.30. Arrives from Strathcona 9.15 and 11.50.

-Train on time.

-The city sprinkler made its debut this morning.

-Fishes: Fair and cool, Saturday stationary or slightly higher temperature.

-Ralph & Kenwood held a highly successful auction sale of cattle, horses and farm machinery yesterday on the farm of Mr. Compton, the S.E. 1st 4 63-23, near Lamoureux.

-A valuable stallion belonging to Mr. J. Watson disappeared from the stable on Jasper avenue east last night. It is supposed to have been stolen and the police are investigating.

-The C.P.R. has a strike to deal with in Nelson, Wednesday 44 Italian laborers employed on construction work between Nelson and Robson, walked out. There was no discussion of any kind. They demand that their wages be paid in full and that they be allowed to board where they please.

-Regina Standard: The news of the giving way of the Saskatoon bridge was incorrect. A C. P. R. official stated this morning that trains were still crossing, but nevertheless, it was expected that with the movement of the ice there would be a stoppage of traffic, and preparations have been made by which settlers will be taken across by means of ferries.

-Messrs. C. A. Hinkley and W. Ward who came in recently from Nebraska, have settled in the district of the little Vermillion north of the Sturgeon. Mr. Hinkley expects over fifty families from one county alone in Nebraska to immigrate to the Edmonton district in the near future.

-McLeod Advance: Mr. Jusice Scott, who has been holding court here, was suddenly taken very dangerously ill while walking along the street in McLeod Wednesday night. He was carried to his rooms at the Queen's hotel, where he was attended by Dr. Johnston. For some time the worst fears were entertained for him but we are glad to be able to state that he is now improving as rapidly as can be expected.

-To provide against the time when the Government may relinquish the control of the creameries, it was proposed at a meeting to establish the Central Association of the Alberta creameries. Several of the creamery associations have already passed resolutions in favor of this project. Mr. Marker stated that with such an association the work would be carried on very much as it is now. The different creameries would not be in competition with each other, as is the case with the cheese factories in the east, but would be united through the association. The association would be an incorporated body, composed of the president and secretary of each creamery association. Supplies could be shipped in, in car lots, as they are now, and distributed to the various creameries, thus saving in prices and freight.

-Moosomin World: A very pretty social event of particular interest to the people of Fleming, transpired at the Presbyterian church, Alexander, Man., on Tuesday, March 21, at 1 p.m., when Miss Maggie Richardson, of Edmonton, was married to W. A. Acton, our popular druggist. The ceremony was performed by Rev. W. M. Fox, in the presence of a large assembly of acquaintances, friends and relatives. The altar was beautiful with floral decorations, the aroma of which ascended as a covenant incense as the marriage vows were being proclaimed. The bride was attended by Miss Nora Acton, Winnipeg, sister of the groom, who was supported by W. F. Piper, of this town. The groom presented the bride with a pearl crescent brooch, giving the bridesmaid a bracelet with beautiful settings. To the groomsmen he presented a pearl stickpin. The bride was the recipient of the customary presents from friends of the contracting parties. Mr. and Mrs. Acton came home by the local, and were accompanied as far as Gravelby by a number of Alexander friends, who returned by the passing train. Many Fleming people were at the station here to welcome the bride and groom, who were entertained for the evening at the home of Dr. and Mrs. Ellis. The newly married couple will shortly take up their residence in J. Barn's house and in the meantime have taken rooms in the Clark block. The World correspondent joins with others in wishing that no cloud may rise above the horizon of their happy home, and that a full measure of the blessings of life may attend them.

E. C. PARDEE,

Manager Edmonton Branch

-The fire brigade had the first practice run of the season last evening.

-The roads throughout the country are in excellent condition.

-Seeding is in full swing in the Coronation, Horse Hills and Poplar Lake districts.

-Several new post offices are being petitioned for to accommodate the settlers between Sick Man Lake and Birch Creek.

-Mr. McNeill, a new arrival from Nova Scotia, has bought the store of R. Dinwoodie at Dinwoodie.

-Thos. Farrell of Vegreville, came into the city yesterday regarding the securing of a license for an hotel at St. Paul des Metis.

-Carpenters have been busy for several days near Fraser's mill repairing coal barges in preparation for the opening of navigation.

-On Tuesday night of last week three inches of snow fell a few inches beyond Bruderheim, Edmonton was visited by a heavy rain storm the same night.

-Percy Blais, proprietor of the Mansion House, Fort Saskatchewan, has completed extensive improvements to the hotel. The house has been newly painted and papered throughout, a billiard room installed, and the bar enlarged and altered.

-Teams continued to cross the river on the ice at the East until yesterday, when a team went through the ice, but were rescued without serious accident. It is reported that a team was drowned at the crossing at St. Paul des Metis a few days since.

-Calgary Herald: Two prisoners were brought down from the north Monday night. One from Wetaskiwin will serve two years in Stony Mountain for breaking into a box car. The other was attired in prison garb, and had been at Edmonton giving testimony at the King murder trial.

-Concerning a party of gentlemen who have been in Edmonton several days looking over the land in this vicinity, the Calgary Herald says: Alberta may receive a large immigration from Vancouver Island, if the report sent home by a delegation now on their way north is favorable. The following gave already here: W. E. Campbell, W. H. Lively, wife and family; Frank Kelley, whose wife and family will follow; and Douglas Conley, whose wife is also to come over. These gentlemen are all from Ladysmith, E.C., where they have been on duty in and around the mines. Mr. Campbell who says he is the "daddy of the bunch," says they are not going to advise any of their fellow-workers to come to Alberta, but they will stay here if they like it and send back a report as to how they are doing, and have it published, and those who are favorably impressed may come over if they want to. The conditions in the coal mining district are such that about 200 families are willing to move to Alberta's fertile lands, and as they are all hard working hardy people, it is to be hoped that they will come over the mountains.

-This is from the Lethbridge News: "No unprejudiced person who is conversant with the circumstances of the case can fail to recognize that in the race for capital honors Calgary will easily double distance her northern rival. Common sense teaches a person that the first, last, and only desire of all concerned should be that a point is chosen which is most convenient and convenient of access for the people of the whole province. That Calgary is the point cannot be denied. Even Frank Oliver with all his pardonable enthusiasm for his own town cannot conscientiously deny it. Edmonton is the centre of a good local district, but as far as Alberta population or business interests are concerned she is away to one side. The fact that the north end of the province has been kinder to Federal government than the south, has no doubt militated against Calgary in the selection of the temporary capital. In the election of the permanent capital, however, no outsiders will have a voice or be permitted to exercise a pull, but the matter will be settled strictly upon its merits by the people of the province. This means that the Edmonton bubble will soon be called upon to burst."
